

ELECTRONIC CONTENT MANAGEMENT

Forms-on-the-Cloud: A paperless proposition from the technology experts at the Gordon Flesch Company.

Managing forms can be both time consuming and costly. Just think of the reams of paper. The mailing and distribution costs. And the endless opportunities for error. If you're looking for ways to save time, money and hassle, the Gordon Flesch Company has a new proposition for you—a paperless proposition. It's called Forms-on-the-Cloud, a simple, easy-to-implement electronic forms management system that allows you to distribute, collect, file and forward forms, without using a single piece of paper.

HERE'S HOW IT WORKS

Forms-on-the-Cloud allows you to collect electronic forms, safely and securely, on a web-based server. From a single, online location, customers, vendors and employees—anyone who needs to fill out forms for your organization—will be able to access and complete them electronically. Once complete, those forms can be filed electronically, emailed, forwarded to another party or printed. Wherever the data needs to go, the technology experts at the Gordon Flesch Company can help you get it there—quickly, accurately and efficiently.

SAFE, SECURE, EASY-TO-IMPLEMENT

Powered by Amazon Cloud, Forms-on-the-Cloud is secure enough to handle even the most sensitive data. And, unlike other electronic document solutions, it doesn't require the cost and hassle that comes with managing complex internal servers. In fact, it requires very little from your IT department. Plus, you won't have to worry about downtime. All servers will be hosted and fully maintained by the Gordon Flesch Company and Amazon Web Services.™

LESS PAPERWORK

Let us help you take the paper out of paperwork. Forms-on-the-Cloud has the potential to dramatically change the way you use paper. Depending on your current paper usage, Forms-on-the-Cloud could pay for itself in just one year. Reducing paper consumption can also help you meet your organization's environmental and sustainability initiatives.

Depending on your paper usage, Forms-on-the-Cloud could pay for itself in as little as one year.

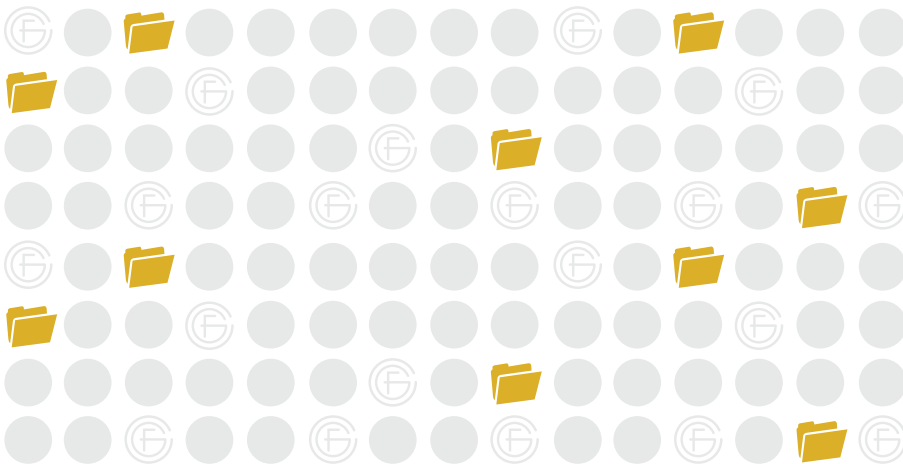

Forms-on-the-Cloud is available at three different price points, and special discounts for higher education and K-12 school systems are available.

A PROGRAM BACKED BY THE TECHNOLOGY EXPERTS AT THE GORDON FLESCH COMPANY.

We'll sit down with you to identify the unique needs of your organization to customize an electronic forms management system that works best for you. At the Gordon Flesch Company, there's no such thing as a one-size-fits all solution. We'll work diligently to make Forms-on-the-Cloud exceed your expectations.

Change the way you manage paper forms to save money and conserve resources at your organization. For more information about Forms-on-the-Cloud and how it can meet your unique needs, contact your local sales representative today. Or visit gflesch.com.

Forms-on-the-Cloud enables you to:

Save money

Reduce paper costs without the hardware, software and server management costs required by other electronic document management solutions.

Save time

No more chasing down information and no more tedious copying, filing and mailing.

Save paper

Exceed your organization's green initiatives with impressive savings on paper.

Save hassle

All your forms will be available in one, easy-to-find place.

Reduce errors

With Forms-on-the-Cloud, incomplete or illegible forms are a thing of the past.

Relax

With the Gordon Flesch Company, we can customize the program to meet your specific needs.
