# IBM Content Navigator

Configurable and customizable, with a plug-in architecture based on open standards

Web interface, deployable on desktop and mobile devices

Unified experience for On-prem and Cloud

Out-of-the-box integration with Microsoft Office, Microsoft Office online, SharePoint, Desktop applications

Cross-repository search allows finding documents quickly and efficiently

Content collaboration with a unified user experience

The screenshot displays the IBM Content Navigator web interface. At the top, there is a navigation bar with a 'Browse' button and a menu. Below this, a sidebar on the left shows a tree view of folders under 'Focus Corp', including 'Customer', 'Demo Integrations', 'Enablement', 'FDA 510(k)', 'FDA Approved Devices', '2019', 'Focus Delivery', 'Human Resources', 'Invoices', 'Legal Review', 'Operations', 'Saved Searches', 'Ships', 'Aircraft Carrier', 'Battleship', 'Frigates', 'Ship of the Line', 'Test', and 'Travel'. The main area shows a table of files under 'Focus Corp' with columns for 'Name', 'Modified By', and 'Modified On'. Below the table, there is a search bar and a search results table. The search results table has columns for 'Name', 'PMA Applicant', 'Product Name', and 'Tags'. The document viewer at the bottom shows a PDF document titled 'USS Constitution.pdf' with text describing the ship's history and a photograph of the ship.

USS Constitution is a wooden-hulled, three-masted heavy frigates of the United States Navy, named by President George Washington after the Constitution of the United States of America. She is the world's oldest commissioned naval vessel afloat. She was launched in 1790, one of six original frigates authorized for construction by the Naval Act of 1794 and the third completed. Joshua Humphreys designed the frigates to be the primary Navy's fast attack, and as Constitution and her sisters were larger and more heavily armed and built with standard rigging of the period. Constitution was built in the North End of Boston, Massachusetts at Edmund Hart's shipyard. Her first duties with the heavy-framed U.S. Navy were to provide protection for American merchant shipping during the Quasi-War with France and to collect the Barbary tribute in the First Barbary War.

Constitution is most noted for her actions during the War of 1812 against the United Kingdom, when she captured numerous merchant ships and defeated five British warships: HMS Guerriere, Java, Pique, Cyane, and Maurit. The battle with Guerriere earned her the nickname of "Old Ironsides" and public admiration that has repeatedly saved her from scrapping. She continued to serve as flagship in the Mediterranean and Atlantic squadrons, and sailed the world in the 1840s. During the American Civil War, she served as a training ship for the United States Naval Academy. She carried American envoys and industrial displays to the Paris Exposition of 1876.

Constitution was retired from active service in 1881, and served as a receiving ship until designated a museum ship in 1907. In 1954, she completed a three-year, 80,000-ton tour of the nation. Constitution sailed under her own power for her 200th birthday in 1991, and again in August 2012 to commemorate the 200th anniversary of her victory over Guerriere.

She is usually berthed at Pier 7 at the former Charlestown Navy Yard, at one end of Boston's Freedom Trail. In May 2016, Constitution entered Dry Dock 1 to begin a three-year restoration program.
