

# POWER REMOTE & HYBRID EMPLOYEES WITH AZURE VIRTUAL DESKTOP

## KEY BENEFITS:

### High Performance

The best virtual Windows 365 experience from anywhere

### Complete Security

Built-in and proactive cybersecurity features

### Reduced Technology Costs

With hardware, licensing and usage efficiencies

### Scalable

Flexibility to turn up or down your environment's computing power and storage

“We are on the verge of another digital transformation for businesses. Office 365 changed the way we USE Microsoft tools...Azure Virtual Desktop will forever change the way we GET to those tools. There is only upside to business owners and IT leaders with Azure Virtual Desktop.”

- Paul Hager | Director of Solutions | Elevation

## WORK FROM HOME. HERE TO STAY:

**41.8%** of the American workforce continues to work remotely<sup>1</sup>

**36.2 MILLION** Americans (22% of the workforce) will be working remotely by 2025<sup>2</sup>

**55%** of workers are using personally owned devices for their work<sup>3</sup>
