

POWER REMOTE & HYBRID EMPLOYEES WITH AZURE VIRTUAL DESKTOP

For Engineering & Design Firms:
GPU-Enabled Azure Virtual Desktops

KEY BENEFITS:

GPU Accelerated Applications from Anywhere

Use graphics intensive applications like Autodesk Revit and AutoCAD from any device anywhere with internet

High Performance

Azure Server Grade GPU's and Azure Solid State Disks to store and launch large drawings fast

Complete Security

Built-in and proactive cybersecurity features

Reduced Technology Costs

With hardware, licensing and usage efficiencies

“We are on the verge of another digital transformation for businesses. Office 365 changed the way we USE Microsoft tools...Azure Virtual Desktop will forever change the way we GET to those tools. There is only upside to business owners and IT leaders with Azure Virtual Desktop.”

- Paul Hager | Director of Solutions | Elevity

41.8% of the American workforce continues to work remotely¹

36.2 MILLION Americans (22% of the workforce) will be working remotely by 2025²

Create in-office efficiency from anywhere.
