

INTEGRATE AND EXTEND

Laserfiche supports AutoCAD drawing storage and viewing natively, making it a perfect repository for specifications and bid packages. AutoCAD fields can be used as lookup keys for Laserfiche retrieval.

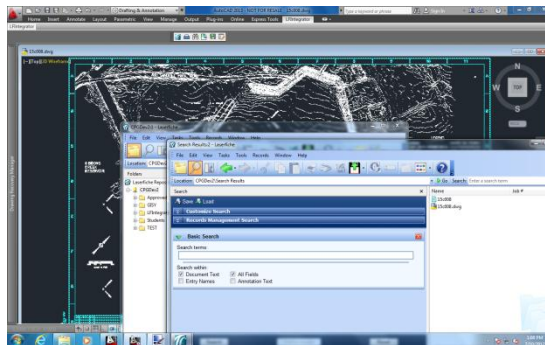

LFIntegrator™ for AutoCAD®

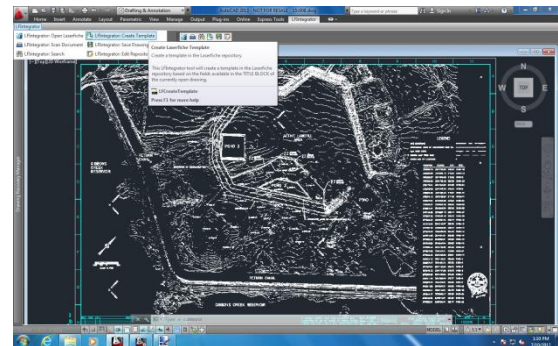

On Screen Integration of Laserfiche with AutoCAD 2013

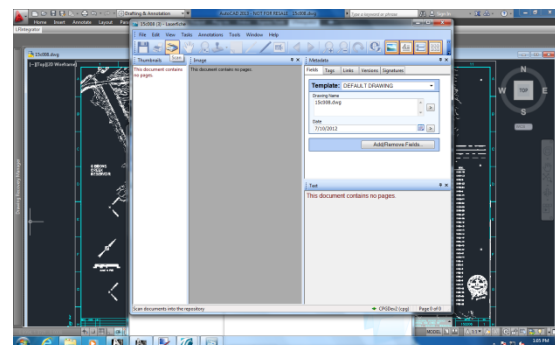

Automatic Creation of Document Template – from AutoCAD, automatically create a document template from any title block and store AutoCAD drawing files or associated documents in the Laserfiche document management system, including cross references

Scan – scan an AutoCAD drawing file or an associated document and have the drawing file information populated automatically. Select Scan Document from the LFIntegrator menu and the Laserfiche Scanning window will be opened ready to scan.

Intelligent Search & Retrieval – with your drawing on the screen, search the Laserfiche database for other associated AutoCAD drawings and documents
